

Windows Vista: New Features

1 day

Description

This ILT Series course teaches those features and functions of Windows Vista that were not present in Windows XP. Students will learn how to work with the Sidebar, control gadgets, perform content searches, and browse the Web with Internet Explorer 7. They will also learn how to configure the Phishing Filter, view an RSS news feed, use Windows Meeting Space, and scan for spyware. This course is intended to accelerate the transition from Windows XP or Windows 2000.

Prerequisites

- *Previous experience with Windows XP or Windows 2000*
